OUR PRODUCT EDUCATION SOFTWARES

School Management ERP

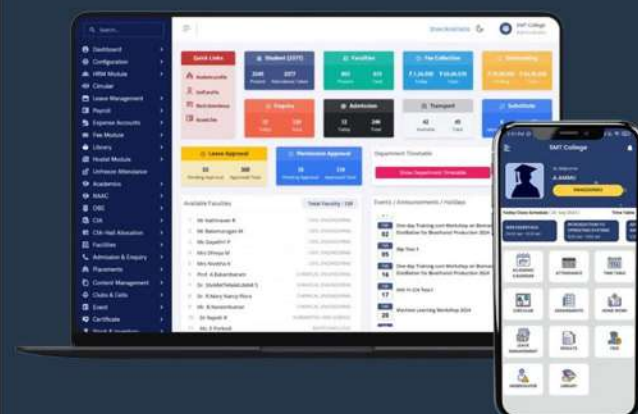

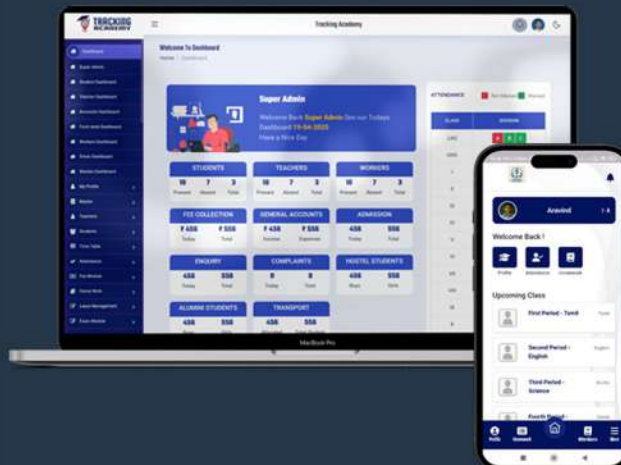

Manage your entire school or college with 25+ smart modules in one platform. From RFID attendance, GPS tracking, online fees, and admissions to digital certificates and instant alerts, everything is simplified. A complete cloud-based solution for students, teachers, and administrators. Ensures better communication, transparency, and academic growth.

Institute Management ERP

Handle all types of training centers, academies, and institutes in one smart ERP platform. Manage admissions, fees, attendance, and communication with ease. Cloud-based access ensures smooth operations for staff, students, and parents. Boosts efficiency, transparency, and overall growth of your institute.

College Management ERP

A complete ERP solution built for colleges and universities with 25+ advanced modules. Simplifies admissions, examinations, attendance, and digital certificates in one platform. Provides role-based access for principals, faculty, students, and administrators. Enhances academic performance, campus management, and digital transformation.

OUR PRODUCT FINTECH INDUSTRIES

Microfinance Software

A secure cloud-based system for managing group and personal loans with ease. Supports multi-branch operations, multi-user login, and field staff digitalization. Ensure accurate collections, daily backup, and advanced security for your organization. Designed to boost efficiency, transparency, and customer trust.

Group Loan Management

Specially built for SHGs, JLGs, and community-based lending institutions. Simplifies group loan creation, repayment collection, and member-wise tracking. Supports field staff digitalization with instant updates and reports. Ensures transparency, efficiency, and smooth management of group lending activities.

NBFC Software

A powerful cloud-based solution designed for Non-Banking Financial Companies. Manages customer onboarding, loan processing, EMI collections, and repayments with ease. Supports multi-branch operations, multi-user access, and real-time reporting. Ensures compliance, security, and smooth digital transformation for NBFCs.
